

HRAC Social Media Report – July 15, 2020

Present: Wendy Bierwirth, Sonja Sheasley and Susan Quinones

The committee met on July 15th to set up a posting form and process to schedule website and Facebook postings throughout the week. We posted about Human Rights news such as John Lewis' legacy and an event scheduled for the 17th where woman can voice their concerns over the increase in domestic violence during the pandemic.

We continued our postings on selected awareness months and days. For August we selected Black Business Month and Immunization Awareness Month, and the International Day of the World's Indigenous People on August 9, 2020. We are preparing an article to celebrate World Humanitarian Day on the 19th.
