

HUMAN RIGHTS ADVISORY COMMISSION

March 8, 2021

Social Media Committee Report

- Proposed name change from Social Media Committee to Communications Committee.
- Expanding social media to include Instagram.
- Lynn is developing a terrific community resource list to fulfill the ordinance requirement. Please look at [the list posted online](#) and edit with any additions, especially local, state and government agencies.
- Creating an interactive calendar where other organizations involved in human rights issues can post events.
- If they have not done so, commissioners should submit a photo and short bio to Susan/Allison for the webpage.
- This month is Women's History Month. If you see any interesting articles along the theme, please forward them to Susan for posting.
- We will be updating the commission website after the retreat. We would like a short write up from each committee describing their goals and listing their HRAC committee memberships.
